

Assets

In 2013, 395 cars were bought as part of the investment program. 1,479 rolling stock units were removed from the inventory over the same period.

This reduction in the car fleet size is necessary to bring it in line with the volume of service provided and employ the unused capacity of the existing fleet through improved efficiency.

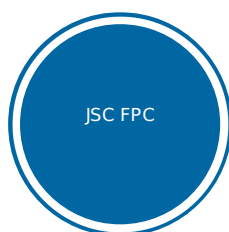

Changes in car fleet structure, cars

Car type	Fleet as of 31.12.2012	Purchased	Retired	Fleet as of 31.12.2013	Average age as of 31.12.2013, in years	Underwent overhaul in 2013
Lounge	1,319	88	70	1,337	18,6	—
Sleeper	10,534	59	389	10,204	18,1	4
